Lightning to USB Cable

USB Power Adapter

Documentation

System Requirements

Apple ID required for some features

Internet access*

Syncing with iTunes on a Mac or PC requires:

Mac OS X 10.10.5 or later

PC: Windows 7, or later

iTunes 12.2.3 or later (download from www.itunes.com/download)

Environmental Requirements

Operating ambient temperature: 32° to 95°F (0° to 35°C). Nonoperating temperature: -4° to 113°F (-20° to 45°C). Relative humidity: 5% to 95% noncondensing. 0 to 10,000 feet (3000 m).

Features

Design: A beloved design. Now with room to love.

iPhone SE is the perfect size for one-handed use. And with a durable aluminum design and a glass front and back, it's built to last. Combine that with the power of the A9 chip, and you've got a device designed to fit comfortably in your life for a long time to come. Plus, it comes in a variety of gorgeous colors and sturdy, dust-resistant construction. Everything you love about iPhone, in a size you love.

Performance: Small size, big performance.

With a 4.7-inch display, iPhone SE is the smallest iPhone you can buy. But don't let its size fool you. Inside, it packs the same A9 chip with 64-bit desktop-class architecture found in iPhone 6s. It's the same technology you can rely on when you're out and about, and it's the same technology that powers iPad Pro.

Touch ID: Advanced security. Right at your fingertip.

Touch ID makes unlocking your iPhone and authorizing purchases easier than ever. Just place your finger on the home button, and you're in. Touch ID is one of the most secure technologies you can find on a mobile device. And it's incredibly easy to use.

Camera: Pro cameras in a portable size.

With a 12 MP camera, iPhone SE takes beautiful photos and 4K video. Plus, it has the same Retina Flash and Live Photos technology as iPhone 6s. And with the resolution of 1080p HD video.

Cameras: Capture more of the moment.

Panorama: Capture your world above or below in a single shot. Simply touch and hold anywhere on the screen, and then move your iPhone to capture a panoramic photo. And when it was taken, on your iPhone SE.

FaceTime HD camera with Retina Flash. Selfies are just got better.

The Retina display isn't just a feature of your FaceTime HD camera. Powered by the same technology as iPhone 6s, iPhone SE has a Retina Flash that's even brighter than usual, the Retina Flash automatically kicks in when you're in a dark room. And when you're in a well-lit room, your iPhone SE's flash matches the ambient light for a more natural-looking selfie.

iCloud Photo Library: All your photos and videos, always up to date.

iCloud Photo Library stores every photo and video you take in iCloud, so you can access them from any device. Even on the web.

Touch ID: Advanced security. Right at your fingertip.

Touch ID makes unlocking your iPhone and authorizing purchases easier than ever. Just place your finger on the home button, and you're in. Touch ID is one of the most secure technologies you can find on a mobile device. And it's incredibly easy to use.

A9: It's why there's nothing else like an iPhone.

With an easy to use interface, a beautiful display, and powerful apps, iPhone is the most personal and most mobile operating system and the most intuitive way to stay in touch with the people and things you love. And beautifully on your iPhone, as even more powerful than ever.

Apps that help you do more every day.

Your iPhone comes with a collection of apps that help you do more every day. Use one app to stay connected with phones, videos, films, and more. Another to keep track of your health and fitness. And another to manage your personal collection.* With iCloud, you can access your photos, videos, documents, and more on your iPhone, iPad, or Mac. And Apple Music gives you access to a catalog of over 30 million songs, playlists curated by music experts, real-time traffic updates, and more.

Siri: Your shield is connected.

Siri is your personal assistant. Ask Siri to do things for you, like send messages, search the web, get directions, and more. Siri understands what you say and how you say it, so you can speak naturally.
